

COPPER BEECH

Copper Beech are a team of florists who create gorgeous funeral flowers for families.

We are proud to be associated with **Picaluna** who are passionate and professional funeral planners. A funeral tribute can be drawn from a loved ones favourite colour, flowers or an inspiration.

Flowers evoke a sense of feeling and love - often a chance to reflect and remember a loved one by carefully crafting together seasonal blooms. We have been creating gorgeous funeral tributes for **Picaluna** since their inception and throughout this time we have helped hundreds of families.

We welcome any special requests for your loved ones to create a unique piece.
